Backend

Node.js, TypeScript, Express

Data/AI

Python, TensorFlow (basics)

DevOps

Linux, Docker, Git

Other

Roblox Lua, WPF / C#

📄 ABOUT

I build accessible, pixel-perfect web experiences. Currently a student focused on full-stack development. I enjoy turning ideas into fast, minimal products.

🏢 EXPERIENCE

Freelance · Web Developer — 2024–Present

- Designed and shipped marketing sites with Tailwind
- Integrated forms/CMS, handled deploys and client feedback loops
- Focused on performance, accessibility, and clean UI

HTL Wien West · Student — 2023–Present

- Team projects covering web apps, databases, and systems
- Coursework in software engineering and networking

📁 PROJECTS

Project	Tech	Description
BlessedPlace	TypeScript, Tailwind, WASM	r/place-style canvas
UpPriority	PHP, Tailwind	Client marketing site
IP-servicesbg	HTML, PHP, Tailwind	Client site for bottling
CollegeFootballTime	EJS, Tailwind	UI contributions

📅 CONTACT & AVAILABILITY

Open to freelance projects, internships, and collaborations. I typically reply within a day.
